OBJECTIVE

Software Engineering aspirant with strong foundations in DSA and full-stack development, seeking entry-level software developer roles to build scalable and impactful solutions.

Education

Coochbehar Government Engineering College, B.Tech in Computer Science and Engineering 2022 – 2026

- CGPA: 7.73/10 (Till 7th Semester)
- **Coursework:** Data Structures and Algorithms, Fundamental of Programming, OOPS, Computer Networks, DBMS, Operating System, Software Development Life Cycle, Web Technologies, Cloud Computing

Experience

Java Full Stack Developer Intern at Zidio Development, 01 Sep-31 Oct 2025

- Developed and tested RESTful web applications using Spring Boot, improving backend efficiency and scalability.
- Implemented CRUD operations and integrated frontend interfaces with backend APIs.
- Collaborated using Git in an agile-style workflow while adhering to industry coding standards.
- Gained practical exposure to the Software Development Life Cycle (SDLC) and team-based development.

Projects

HireHub – Full Stack Job Portal Platform [Link](#)

- Developed a scalable full-stack job portal platform using React, Spring Boot, MySQL, and Docker, enabling job search, application tracking, resume management, and employer hiring workflows.
- Implemented JWT-based authentication and role-based access control using Spring Security, securing RESTful APIs and ensuring protected access for candidates and employers.
- Designed and integrated REST APIs and responsive frontend components, supporting job posting, applicant management, search filtering, pagination, and efficient recruitment processes.

NexusChat – Real-Time Chat Application [Link](#)

- Engineered a full-stack chat application enabling real-time messaging with user authentication, utilizing React.js for the frontend and Spring Boot for the backend.
- Integrated STOMP/WebSocket communication for instant message exchange and user presence updates, with messages stored persistently in MySQL.
- Implemented JWT-based authentication with refresh token support and employed Docker Compose with Nginx for containerized deployment and efficient application management.

Coding Profile

Leetcode: 200+ problems solved

CodeChef: 2* and 50+ problems solved

Achievements

National Semi-Finalist – Tata Imagination Challenge 2024

Advanced to the national semi-finals among thousands of participants across India by showcasing innovative thinking and advanced problem-solving skills.

Technical Skills

Languages: C++, Java

Frontend: HTML5, CSS3, JavaScript, React.js

Backend: Spring Boot, REST APIs, FastAPI

Database: MONGODB(NoSQL), MySQL(SQL)

Cloud and DevOps: AWS (EC2), Docker, CI/CD, Git, GitHub
